**AUG 7, Thursday**                      **INSIDE PASSAGE CRUISING**

The fabled Inside Passage is one of the most scenic sea lanes in the world, and one of the few where deep draft vessels can sail close to steep mountain walls. The scenery is unbelievable, with forests in a hundred shades of green, tumbling turquoise glaciers, and evocative towns full of history, culture, and adventure. With most of Southeast Alaska accessible only by boat or plane, the Inside Passage is a lifeline to the outside world, humming with activity all day long.                      BLD

**AUG 10, Sunday**                      **CRUISING GLACIER BAY**

Early this morning, we are treated to a breathtaking sight: rocky promontories that mark the entrance to this spectacular bay. Forested slopes give way to jagged peaks, and rivers of ice cascade down the steep slopes into the tranquil waters below. Watch in wonder as pinnacles of ice split from the glacial cliff and crash into the sea. Local experts provide fascinating insights into the prehistoric formations we are witnessing and help us spot the abundant wildlife that calls this place home. Possible sightings include harbour seals, mountain goats, humpback whales, schools of orcas, bald eagles, and even black bears.
