CT Rating 3.5/5 - Challenging: India offers diverse cultural experiences but requires an open mind to enjoy its unique environment. Living standards can differ from those in Canada. Travellers should anticipate a high-energy environment within busy market districts and urban centres. Traffic is often chaotic, and the itinerary includes several long travel days where roadside facilities may be limited. Air quality, especially in busier cities, can be poor. Accommodations range from deluxe to rustic heritage properties. Food is primarily vegetarian or vegan, served buffet-style, and can be spicy. Due to physical and cultural demands, members should be in good health and capable of managing their own luggage.
